

Beyond The Destruction...

- AAI SecureDocs is liable for the security of all media from the time it is collected until the time it is recycled. No Exceptions.
- We are AAA certified for providing consistent, reliable and secure service based on standards developed by NAID (The National Association for Information Destruction).
- Fully trained and certified back-up staff and maps of your cart and container locations are provided to ensure you will not experience an interruption in services.
- AAI SecureDocs encourages customer inspections for peace of mind and to ensure material is quickly and securely destroyed.
- All shredded material is baled and recycled. We're proud to say that we are an environmentally friendly company.
- We provide your company with a Certificate of Destruction.

Guaranteed Destruction!

Top Priority For The AAI SecureDocs Team Is Security And Confidentiality Of Your Sensitive Material

We Lower Your Risk By Making It Harder For A Theft To Occur

Businesses recognize the growing problem. Massive volumes of confidential documents accumulate daily. The risk of misuse and information theft is high....and the resulting personal and corporate damage...enormous.

AAI SecureDocs is a partner for the security of you and your organization.

Both local businesses and government agencies need to comply with the FACT Act, HIPAA Act and other federal regulations designed to protect sensitive information and eliminate the improper disposal of that information.

The FACT Act requires the destruction of consumer information BEFORE it is discarded.

Security

- AAI SecureDocs is fully equipped to shred your documents to strict federal requirements. All shredded material is baled, palletized and transported for environmentally friendly recycling.
- We also offer disintegration service. Our disintegrator equipment cuts objects until they are virtually unrecognizable. This technology is ideal for destroying CD's, floppy disks, credit cards, circuit boards, books, cassettes and more.
- We have a proven track record of providing secure destruction services to government agencies, hospitals, gaming organizations and more.
- We provide services to federal government agencies including contracts through the Javits Wagner O'Day Act (JWOD) and are a General Services Administration (GSA) contract holder.

- All destruction is accomplished at our non-public satellite facility in Minneapolis.

Your documents remain in our possession until recycled.

Not everyone can make this claim.

- The AAI SecureDocs' document destruction areas are guarded 24 hours a day, 7 days a week by closed circuit video monitoring and motion detection systems.

No one enters or exits without written authorization.

This means your property is secure.

- Safety and security at AAI SecureDocs meet all federal requirements and we are AAA certified by the National Association for Information Destruction (NAID).

NAID members are bound to a strict code of conduct and are held to the industries highest standards.

- Every AAI SecureDocs' employee has undergone an extensive security and background check including seven-year employment verification, a drug & alcohol test and a comprehensive screening process. AAI SecureDocs employees sign confidentiality agreements and drivers meet all governmental licensing requirements.

Every square inch of AAI SecureDocs is secured and insured!
